Buy your LAWN GRASS SEED from those who know LAWN GRASS SEEDS

SEEDS FOR EVERY LAWN REQUIREMENT

ABOUT LAWNS

A good lawn is, without doubt, one of the important features of the home grounds or of any landscape design. It should be remembered when considering a new lawn that the cost of the seed is only a very small part of the actual investment. The labor cost is the greatest. It is thus no economy to save a few cents by buying seed of a questionable quality, only to realize the added expense in years to come of repatching and doing the lawn over and over again. We take pleasure in recommending our grades of Kentucky Blue Grass, which are the best obtainable, and also our mixtures for special purposes as listed below.

CHAMPION LAWN

A blend of quick growing grasses plus Kentucky Blue and Clover. Produces a rugged turf in good or poor soils. Sow where the lawn will get the hardest usage. Excellent for terraces. Sow 1 lb. to 100 square feet (10x10 ft.).

| | | | |
|-----------|--------|-------------|---------|
| 1 lb. bag | \$1.00 | 10 lb. bag | \$ 8.50 |
| 3 lb. bag | 2.90 | 25 lb. bag | 20.00 |
| 5 lb. bag | 4.50 | 100 lb. bag | 75.00 |

SUNNYSIDE LAWN

Blended of all perennial fine bladed grasses, including Bent, for an attractive smooth carpet-like turf in full sun or partial shade. Rich velvety green in color, quick growing. When established, with just ordinary care, will give you a lawn of which you will be proud. Sow 1 lb. to 200 sq. ft. (20x10 ft.).

| | | | |
|-----------|--------|-------------|----------|
| 1 lb. bag | \$1.45 | 10 lb. bag | \$ 13.00 |

MERION B-27 BLUE GRASS

This is a new strain of Blue Grass that started from a single plug of turf at the Merion Golf Club in Pennsylvania. It makes a dense, dark green turf, spreads rapidly and crowds out weeds because of its vigorous growth. In tests, Merion Blue Grass shows a great advantage over regular Blue Grass in the control of Crab Grass, due to its husky, well-rooted plants, free of disease, with more drought tolerance that fights off Crab Grass plant invasion. Use only one pound for 400 to 500 square feet.

Per lb. \$4.15

ASTORIA BENT

The most popular bent in this area for lawns. Spreads by underground rootstalks and forms a beautiful turf. Thrives on stiff soils and withstands drouth better than the true creeping bents. Excellent for putting greens. Sow 1 lb. to 250 sq. ft. (25x10 ft.). In sealed blue tag cotton bags with certification by State of Oregon.

SHEEP MANURE

(Finely Pulverized)

Can be used separately or in combination with the chemical fertilizers or peat. This fine manure gets into the ground where needed, and is not eventually raked off as is most of the barnyard products. 100 lbs. cover 500 square feet. Bag, about 80 lbs., \$2.00.
